MEMORANDUM FOR: Executive Director, NPIIC

SUBJECT: Photo Chemical Lab for [REDACTED]

25X1A

25X1A
25X1A
1. As you are aware, we have been attempting to arrive at a conclusion concerning the installation of a chemical mixing facility for the photo lab in [REDACTED]. To this end, we issued a Technical Directive to NIMA which called for the preparation of specifications for the mixing facility. (Attachment A) The work on this effort was performed primarily by [REDACTED] for NIMA in direct coordination with DDC/NPIIC. This was completed and after NPIIC's approval was sent by NIMA to six of the principal designers of such facilities in the United States as the specifications around which a proposal to fabricate and install the installation was to be submitted. In response to the request for bids, three proposals were received by NIMA which have been carefully evaluated by all persons concerned in NPIIC. The evaluation resulted in a recommendation that the contract be awarded to the [REDACTED]. The reasons for this recommendation are documented in the memorandum from the Chief, DDC. (Attachment B)

2. It is recommended that a contract be negotiated between NPIIC and the [REDACTED] for the installation of the chemical mixing facility in accordance with their proposal and the specifications prepared by NIMA. It is further recommended that this be accomplished with technical supervision by [REDACTED] as covered under the new Technical Directive No. 4 of Assignment 3 of the NIMA contract which continues [REDACTED] services in this regard through the installation and check out of the photo chemical system.
